ABOUT ME

Computer Science student with hands-on experience building full-stack web applications and AI-powered software using Python, Django, Next.js, and REST APIs. Interested in software engineering, Full-stack development, and AI applications, with a focus on building practical solutions and strengthening skills in data structures and algorithms.

EDUCATION

Wrexham University

Sept 2025 - Aug 2029 (Expected)

Bsc (Hons) Computer Science, with Industrial Placement

- Currently in Year 2

EXPERIENCE

Service Colleague | ASDA | Sept 2024 - Present

- Worked effectively in a fast-paced customer-focused environment while maintaining accuracy and efficiency.
- Collaborated with colleagues to complete daily operations and meet customer needs.
- Developed strong communication, teamwork, and time-management skills alongside university studies.

PROJECTS

AlphaBot | Python, Django, PostgreSQL, AI APIs

Personal Project | Ongoing Development

- Building a command-driven AI assistant for code assistance and content generation through a unified chat interface.
- Developing the backend with Python and Django, with persistent chat history and API integrations.
- Rebuilding the frontend with Next.js and modernising the data layer using Supabase
- Implementing command-specific tools, API rate limiting, and security-focused architecture improvements.

Manjaly's Fresh Direct | Next.js, Django, PostgreSQL, Stripe

Full-Stack E-commerce Application | Ongoing Development

- Developing a full-stack e-commerce platform for a local food business using Next.js and Django.
- Built product browsing and a Django REST API for managing product data and inventory.
- Implemented a shopping cart with weight-based purchasing and stock-aware product quantities.
- Integrated Stripe test payments and developed checkout and order-processing functionality.
- Built a Django admin interface for managing products, stock, and customer orders.
- Developing the platform further with improvements to checkout, order handling, and overall user experience.

TECHNICAL SKILLS

- Languages: Python, TypeScript, C++, SQL, JavaScript
- Frameworks: Django, Next.js, React
- Databases: PostgreSQL, Supabase
- APIs & Payments: REST APIs, Stripe
- Tools: Git, GitHub, Vercel, Render
